GitHub: https://github.com/Ashishchauhan528 Mobile: +91-8580916978

SKILLS

Languages: JavaScript, C++, Python
Frontend: React.js, HTML, CSS
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
Tools: Git, GitHub, Postman, VS Code, Power BI
Soft Skills: Problem Solving, Analytical Thinking, Critical Thinking

PROJECTS

Prescripto – Doctor Appointment Booking Platform – **GitHub** Mar '26

- Developed a full-stack doctor appointment booking platform enabling patients to browse doctor profiles, check availability, and schedule appointments through a secure, intuitive interface.
- Built **RESTful APIs** for managing doctor profiles, patient data, and appointment scheduling, and implemented **JWT**-based authentication to ensure secure user login and protected route access.
- Integrated **Razorpay** payment gateway for seamless appointment fee transactions, and used MongoDB based modular architecture to enhance scalability and maintainability.

Tech Stack: React.js, Node.js, Express.js, MongoDB

OBYS Agency Website Clone - GitHub Feb '26

- Developed a pixel-accurate clone of the OBYS Agency website, replicating its visual identity and layout with a strong focus on responsiveness and modern UI/UX design principles.
- Implemented advanced animations and scroll-based interactions using **GSAP**, combined with smooth scrolling effects and interactive DOM manipulations to deliver a high-fidelity frontend experience.
- Structured the codebase with clean, reusable components and proper file organization to ensure cross-browser compatibility, optimal performance, and long-term maintainability.

Tech Stack: HTML, CSS, JavaScript

Global Human Development & Inequality Metrics Explorer - GitHub Nov '25

- Built an interactive multi-page Power BI dashboard analyzing global human development trends across 190+ countries using datasets sourced from UNDP, covering HDI, GDI, GII, MPI, and PHDI indicators.
- Performed end-to-end data cleaning, transformation, and modeling, applying advanced **DAX** calculations To uncover insights into inequality, poverty intensify, gender gaps, and environmental impact.
- Designed dynamic **slicers** and comparative **visualizations** to enable clear, user-driven exploration of development trade-offs and country-level performance across multiple dimensions.

Tech Stack: Power BI, DAX, Data Modeling, Data Cleaning, UNDP Datasets

TRAINING

Logic Building, Programming and Data Structures - LPU Jun '25 – Jul '25

- Achieved **A Grade** in a skill-based training program focused on algorithmic thinking, problem-solving, and implementation of core data structure
- Implemented core programming concepts and essential data structures.
- Developed efficient solutions using structured problem-solving and optimized coding approaches.

CERTIFICATES

- Learning Microsoft Power BI | Infosys Dec '25
- Cloud Computing | NPTEL Oct '25
- Responsive Web Design | freeCodeCamp Oct '23

ACHIEVEMENTS

- Solved **100+ problems** from Striver's A to Z DSA Sheet, strengthening core data structures and algorithms Concepts. Jul '25
- Secured **AIR 1402** in IMU-CET, demonstrating strong aptitude and competitiveness. Jun '23

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.08** Aug '23 – Present

D.A.V. Sr. Sec. Public School Una, Himachal Pradesh
Intermediate; **Percentage: 79.2** Apr '21 – Mar '22

D.A.V. Sr. Sec. Public School Una, Himachal Pradesh
Matriculation; **Percentage: 76.8** Apr '19 – Mar '20
